Lead eight cross-functional teams (social, email, CRM, platform, creative, SEO, paid and demand) across global offices to adapt and deliver every campaign cohesively.

Led the migration of FIFA+ onto DAZN, moving 3M+ users across and driving continued sign-up growth, with go-to-market plans for member associations worldwide. Run campaigns for the FIFA World Cup, U-20, U-20 Women's and U-17 World Cups.
- **Global rights portfolio:** build and run market-by-market campaign plans for LaLiga, Bundesliga and Copa Sudamericana across DAZN's territories, working with international offices to localise positioning and creative.
- **UEFA Champions League & Europa League:** develop market-specific propositions for the US, Canada and New Zealand, shaping how the competitions are positioned in each territory.
- **Serie A:** lead UK marketing for DAZN's exclusive Serie A rights, driving awareness and acquisition among UK football audiences.
- **Platform & partner relationships:** own DAZN's football relationships with TikTok, Instagram and Meta end to end across the full portfolio, and hold the relationships with clubs, football associations, commercial partners and the creative agency, including a high-volume tournament asset pipeline.
- **Team & operating model:** building and growing the marketing team around the football arm of the business, and implementing efficient processes aligned to business goals and policies so campaigns land consistently in every market.
